

In the Specification:

Please amend and substitute the following paragraph for the paragraph beginning on page 4, line 26, as follows:

The measurement system 28 allows for closed loop control of the motor 20. For example, the measurement system [[20]] 28 can monitor the position of a portion of the mover assembly 16 and provide the information to the control system 18. Additionally or alternatively, the measurement system [[20]] 28 can include one or more sensors (not shown) that also monitor the position or shape of the object 12 and provide the information to the control system 18.
